

Vanguard Applications Ware Installing Patches Advisory Notice

Introduction

This notice contains information on how to install patches which include Service Pak 6.1.S100 and based on Vanguard Applications Ware Release 6.1.R000.

Install the Patch Executable File

Follow these steps to install the patch executable file:

Step	Action
1	If you have not already done so, install Vanguard Software Builder from any Vanguide Release 6.1.R000 CD-ROM (Part Number 72608-30 A).
2	Download the V61T1**.ZIP file (where ** represents a number or letter, for example: 1A) from Vanguard Managed Solutions, please save the file to a local drive on your computer.
3	Use WinZip® to extract the ZIP file. The V61T1**.ZIP file contains the V61T**.EXE, FLASHTL.EXE, VNGDTERM.EXE files, and a copy of this advisory notice in PDF format.
4	Copy the FLASHTL.EXE and VNGDTERM.EXE to your Vanguide installation directory, C:\Vanguard\VANGUIDE. You will get a Windows message asking you to confirm the replacement of the existing files, click yes.
5	Run or open the V61T**.EXE executable file from your local drive.
6	The patch executable file prompts you with installation instructions. Insert the Vanguide 6.1.R000 CD-ROM into the CD-ROM drive and select its drive letter. Follow the installation instructions provided by the installer.

■Note

For more detailed patch installation instructions, refer to the *Vanguard Software Builder Manual* (Part Number T0030).
