## Vanguard Offers New ATM Router

The 3410 Access Services Gateway solution improves ATM communication.

May 15, 2008

Foxboro, Mass.-based Vanguard Networks introduced the 3410 Access Services Gateway (ASG), an enterprise communications solution for the middle-market ATM segment. The ATM router allows customers to run existing applications on current networks, or migrate to new IP carrier services without replacing non-IP applications or peripheral devices, according to the vendor.
