

Vanguard 7300 Series Hardware Advisory Notice T1/E1/PRI Card Release 6.5.T10A

Introduction

Given improvements in technology and the evolution of hardware and software on this platform, this notice describes a revision change on the Vanguard 7300 series T1/E1/PRI daughter card. This advisory applies exclusively to new standalone cards and not to any within a previously configured 7300 platform.

Vanguard 7300 T1/E1/PRI Card Upgrade

The Vanguard 7300 T1/E1/PRI upgrade is designed to improve product performance. The upgrade requires a software enhancement and applies *only* if you have a Revision C T1/E1/PRI card.

The following cards are affected:

<i>Product Code</i>	<i>Description</i>
53132	8 Port T1/E1/PRI Expansion Card (Brand New)
53133	12 Port T1/E1/PRI Expansion Card (Brand New)
53143	8 Port T1/E1/PRI Expansion Card (Service Spare)
53144	12 Port T1/E1/PRI Expansion Card (Service Spare)

The following table summarizes the software version required for different Applications Ware releases:

<i>T1/E1/PRI Card Rev C Applications Ware Version</i>	<i>Software Version</i>
Applications Ware License 6.5	6.5.T10A
All Earlier Applications Ware Releases	Call Product Support Line: 1-800-544-0062

All T1/E1/PRI cards shipped as of 1/29/2006 will be Revision C.

**Checking
Card
Revision**

The arrows in Figure 1 show the location of the revision label, which identifies whether the T1/E1/PRI card is Revision C.
